call for papers

Papers are welcome on the following:

- Improved outcomes where failures have suggested novel avenues of research or revised conceptual framework for designers
- New products
- Improvement to computational models or other design tools prompted by field experience or experiment
- Novel methods of management, organization, or quality assurance
- New research and revised design understanding
- Construction methods
- Case studies on any of the topics above
- Integrating building design into the built environment

Abstracts should be submitted in digital form to:
info@becwinnipeg2011.com
