13th Canadian Conference on Building Science & Technology

www.becwinnipeg2011.com

Dear Ryan,

The Manitoba Building Envelope Council, on behalf of the National Building Envelope Council, is pleased to organize and host the 13th Canadian Conference on Building Science and Technology which will be held in Winnipeg, Manitoba on May 10-13, 2011.

The conference will emphasize new innovations and ideas which are still under development in the building science industry and illustrate how our past techniques and technology have helped to bring us to this point.

For more information, visit the conference website www.becwinnipeg2011.com or info@becwinnipeg2011.com

call for papers

Papers are welcome on the following:

- improved outcomes where failures have suggested novel avenues of research or revised conceptual framework for designers
- new products, systems or techniques for improved building enclosure performance
- improvement to computational models, or other design tools prompted by field experience or experiment
- novel methods of management, organization, or quality assurance
- new research and revised design understanding
- construction methods
- retrofit of existing building structures to modern energy and sustainability design standards
- building commissioning and whole building performance verification
- air tightness of whole buildings
- HVAC and air tightness harmonization
- concept of building science as a profession and industry capacity building to meet future building demands
- cost effective and practical solutions to new building construction and retrofits for existing structures that balance economics, regulatory pressures and existing market capacity
- increased use of smart building technologies to operate buildings in a pro-active and computerized environment
- integrating the building envelope design into the built environment

Abstracts should be submitted in digital form to: info@becwinnipeg2011.com

Abstracts must be received by May 31, 2010; authors will be informed of the status of their abstracts by June 30, 2010.

organizing committee

The Manitoba Building Envelope Council (MBEC) is an association that has a diverse and wide cross section of members involved in the building envelope industry. MBEC's number one priority is to promote excellence in the building envelope through technology transfer.
