Sopraseal sealant (optional)

Sopraseal Stick 1100T

Sopraseal Stick Primer

Galvanized steel L or wood blocking (i)

(i) Required with sprayed polyurethane foam applied on self-adhesive membranes, under certain conditions. See a Soprema representative

(ii) Required with moisture sensitive insulation.
Note: Wood blocking at openings is recommended with sprayed polyurethane insulation.
Install a 12" (300 mm) wide strip of Sopraseal Stick 1100T by adhering the first few inches at the top and leaving the release film the remainder of the strip. Overlap end of strips by a minimum of 6" (150 mm).
- Cladding (brick)
- Air space
- Insulation
- Sopraseal Stick VP flashing (ii)
- Sopraseal Stick VP
- Support panel
- Insulated steel studs
- Vapour retarder
- Interior finish
