

ABAA Sprayed Polyurethane Foam Installer Online Course Registration Form

Applicant Name:	Date:
------------------------	--------------

Course Description:

- This ABAA course is open to everyone and offers an excellent educational opportunity for all. NO experience is required to attend the course. Those who would benefit from training include manufacturers, sales reps, general contractors, architectural reps, and anyone in the construction industry.
- This course is designed to prepare an experienced SPF installer for the commercial installation of SPF as a complete air barrier system. This course includes instruction on everything from selecting proper materials, substrate preparation, application technology and troubleshooting.
- For certification purposes only, a minimum of 3000 hours of work experience either directly with air barriers or in applicable related trade experience is required, with 1500 of those hours being directly relate to SPF.
- Air Barrier Contractor members that hold ABAA Accreditation are required to have one certified installer **and** one person trained in the Quality Assurance Program Administrator Course. This can be the same individual.

Important Information:

- Students who cancel their registration with less than 5 business days' notice will not receive a refund.
- All students will receive a physical manual to study in preparation for the online exam.
- Those seeking certification will be required to write an online proctored exam which requires a webcam and microphone.
- An ABAA instructor will be available for a Q & A period following training. This will be determined on a "course to course basis."

Please Note:

- If you are looking to become certified there is additional paperwork that must be completed and will be provided during training.
- Please complete one registration form per person.
- Payment must be received prior to the start of the course.

I have read and understood all the information stated above.
